(PBT) Chemicals under TSCA Section 6(h) Compliance Statement

Knowles Precision Devices is a leading supplier of electronic components, supporting the Toxic Substances Control Act (TSCA) and customer requirements of our industry.

Persistent, Bioaccumulative, and Toxic (PBT) Chemicals under TSCA Section 6(h)

As required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, EPA issued five final rules on January 6, 2021 to reduce exposures to certain chemicals that are persistent, bioaccumulative and toxic (PBT). These chemicals build up in the environment over time and can therefore have potential risks for exposed populations, including the general population, consumers and commercial users, and susceptible subpopulations (such as workers, subsistence fishers, tribes and children).

TSCA Section 6(h) restricted substances

All product lines listed in Table 1 comply with the prohibitions and restrictions on the manufacturing, processing, and distribution of substances, mixtures and/or articles are set out in the US Code of Federal regulations (CFR) Title 40, Chapter I, Subchapter R, Part 751-REGULATION OF CERTAIN CHEMICAL SUBSTANCES AND MIXTURES UNDER SECTION 6 OF THE TOXIC SUBSTANCES CONTROL ACT
